Building Renovation and Additions Project

PROJECT SCOPE:

The Baird Community Center was originally constructed in three phases: the first in 1895, the second in 1930 and the third in 1973. The project scope includes the renovation of all existing rooms and porches, replacing the existing roof and adding on a new multi-purpose field house gymnasium.

In addition to the field house, the project will include major renovations to the existing building so it may better serve the community. New arts classrooms will integrate with a new art gallery on the first floor. New dance classrooms are more accessible to children and parents. Numerous multi-purpose spaces will provide valuable community meeting spaces, as well as space for recreation classes and programs for all ages. A performance space and large meeting space on the third floor will support all types of recitals, ensembles and performances and provide a valuable meeting space for town committees and community groups.

As demolition progressed, we uncovered a few historic elements that will be incorporated into the completed project. These features include 4 fireplaces, original timber beams and columns, roof trusses and the original brick chimney. Improvements will include making the building 100% ADA accessible, new heating and air conditioning throughout, additional restrooms, new elevators, restoring the second-floor porch and adding additional outdoor space for gathering and events. Life safety upgrades include a new fire alarm system and fire sprinkler system along with new fire stairs to replace the aging fire escapes. The exterior will be renovated with a new roof, siding, windows and doors that will make the building more energy efficient and will rejuvenate Baird's appearance.

PROJECT TEAM:

Trustees of South Orange Village:

Sheena C. Collum - Village President, Bill Haskins, Karen Hartshorn Hilton, Summer Jones, Bobby Brown, Jennifer Greenberg and Olivia Lewis-Chang

Village Administrator:

Julie Doran, Acting

Town Engineer:

Van Cleef Engineering

Purchasing Agent:

Ellen Foye-Malgieri

Director of Recreation:

Peter Travers

Director of Code Enforcement:

Anthony Greci

Architects:

The Biber Partnership

Construction Managers:

Jay Shapiro & Associates, Inc.

Construction Contractor:

Frankoski Construction

MAJOR MILESTONES:

- Awarded to Frankoski Construction 12/04/2020
- Exterior improvements completed Fall 2023
- New addition completed Fall 2023
- Interior Renovations Completed Fall 2023
- Final Inspections Fall 2023
- Certificate of Occupancy Issue Fall 2023

PROGRESS THIS MONTH:

- **General Work Progress:** Project is approximately 90% complete. Porch waterproofing will be completed in August. Site work continuing. Siding and clock installation in August.
- **Exterior Work:** Installation of stucco siding panels and shingles will complete in August. Exterior painting and sitework structures will continue. Parking lot and plantings will complete in late fall.
- **Interior Work:** Painting continuing throughout. Light fixtures nearly complete and ceiling tiles on-going. Gym floor is installed and finishing will continue through August. Small gym floor to be installed and finished in August. Kitchen equipment to start installation in August. Refinishing of existing woodwork to start.
