Mean:	23.8	22.7	23.2
85 th Percentile:	28	28	
95 th Percentile:	30	30	
			<u>TOTAL</u>
Total Vehicle Count:	--	--	6594

Location – 252 Academy Street

NB – Northbound Traffic

SB – Southbound Traffic

The recent speed study conducted on Academy Street does not exhibit patterns of excessive speed. Speed humps, rumble strips, dips, reducing posted speed limits (currently at 25mph) and other major traffic calming changes must meet a certain criteria with regard to engineering and the M.U.C.T.D. (Manual on Uniform Traffic Control Devices). The Police Department involvement for such (and for general traffic analysis) is to conduct traffic studies to determine when and where our greatest issues are. Speed reducing or traffic calming measures for Academy Street is limited to traffic enforcement & education. In short the Police Department can only provide the requested data and give the objective result.
